The "Universal" Wringer So long offered as a PREMICH by the AMBRICAN AGRICULTURIST, the RURAL NEW YORKER, and other leaping Periodicals, still stands unrivalled for Sympacus and Dumanility. Its sale con-stantly increases, as those who are induced to buy other hinds, which sconer wear out, are sure

Shirts to Measure Extra Double and Perfect to get the Universal as their second purchase in Fit. Clergymen will be allewed 6 per cent, It is the only Wringer which has ROWELL'S PATENT COGS, with long and strong alte nate teeth, which can separate widely, or crowd closely together with-

out binding or losing their power.

These are protected by the PATRET Is the great remedy that physicians appeal to

CAUTION. The importance of this Patent STOP is not nerally understood, and sometimes people buy wringer with single or spiral cope on both ends of the shaft, expecting to get the same advan-tage; but as articles can disconnect these single

cogs, on either one side or the other continually, one half of the power of the cogs is constantly lost, as in she illustration below, with Cogs Separated at one End.

Or if a large article pass a through the wringer, all the edge are frequently disconnected and rendered entirely useless, as in the illustration

The most popular and cheapest Sunday School style s. Special attention given to this class of Always Try a Wringer before Purchasing and buy none which will play out gear in presing a sheet, blanket or bedquilt. The Universal is sold as low as any other li-censed wringer, and kept by dealers generally.

DISEASES

Mercury or Calomel

STOP, or screw, above the cogs, which pre-vents them from entirely separating, so the Liver. There are thousands at the present time Universal Wringer Mever Plays that are suffering with the rhounatio p.ins in the joints, caused by the use of Calomei which has created a disease of its own worse than that which it was intended to cure. There is no drug that leaves its mark more prominent in the system. Yet, perhaps, there are times when it can be given, and have a benificial effect, but should not be dealt out as it has been, and is at the present time, by those that pretend to know what they are doing, but in reality do not. The Liver is more liable to disease than any other rgan in the buman system, and when that fails do its duty it leaves the weak points of the body exposed, as the bile is not thrown off, but taken up by the blood, as it passes through this great filter of the system, and becomes impure. Then follows a train of diseases, whose name is he rolls can separate far enough to pass the lar- Legion. There are many that suffer from pain in the side and across the body, dull, heavy, drowsy feeling, beadache, pain in the right side, often severe pain in the bowels, costiveness, flatulence, diarrhea, more or less indigestion, loss of appetite, sailow skin, white of the eyes yellow, sinking of flerh, depression of spirits, at other times a great craving for food. Some of these symptoms are caused only by torpidity of the Liver. It is impossible to give all the symptoms of a deranged Liver, and they are all cureable without the aid of Calomel.

Congestion of the Liver,

The symptoms of which are, pain in the right ide running to the shoulder, a loss of strength, appetite and energy, a sense of appression, lowness of spirits, squesmishness of the stomach, a yellowish coated tongue, reatlessness, frightful dreams, all of which yield to the influence of "TAYLOR'S STOMACH AND LIVER COR-RECTOR," of which enough should be taken to cause a speedy and free evacuation of the bowels

Indigestion or Dyspepsia,

dees in the stomach to convert our food and drink into healthy matter for the nourishment the whole system. It is caused by everywith togs Separated at BOTH Ends, making the Machine he better than a Friterior particularly the atomach. Nearly, if not quite well-arms when the strain is hardest and the cogs most needed. variety of unpleasant feelings. Among the most prominent of its miserable effects are, a want of, or an incrdinate appetite, sometimes attended with a constant craving for drink, sour stomach, grinding pains in the stomach, depresstomach, grinding pains in the stomach, depres-sion of spirits, gloom of mind, fretfulness, wast-ing of flesh, loss of energy and strength, very irritable, heart burn, unpleasant taste in the mouth and rumbling in the bowels. In some mouth and rumbing in the boses of deprayed indigestion, there is a complete disrellsh for food, at other times a person so afflicted can eat leartily without much gratification. A long train of nervous symptoms are also frequent attendants, general debidity, great languidness and incapacity for exertion. The minds of persons so afflicted frequently become critable and desponding, and great anxiety is observable in the countenance; they appear thoughtful, melancholy, and dejected, under great apprehension of some imaginary danger, will start at any unexpected noise or occurrence, and much agitated. Yet for all this the mind is exhiberated without much difficulty, pleasing events and society will for a time dissipate all appearance of disease. Other symptoms are, vispeciation, sestlessness with a sense of weight and odpression upon the chest, night-mars, etc. It is almost impossible to name all he symptoms of this invader upon the constituthe symptoms of this invader upon the constitution, as in aimost every case of indigestion, there will probably be something peculiar to each, but he what they may, they are all occasioned by the food becoming a burden, rather than a support to the atomach, and in all its strages, the medicine most wanted is that which will afford speedy assistance to the digestive organs and give energy and strength to the nervous and muscular system, and a new life to the whole body, and nothing can be, and there is nothing, that will give so quick relief, as Tay-lor's Stomach and Liver Corrector, the Great edy for Blood, Liver and Skin Diseases, and

> -dache Sick Hea.

to four bottles will effect a oure.

Those that are subject to it only know w. istressing complaint it is, and is a very un lsion, followed by a terrible pain, sickness at be stomach, and vomiting and then for a day r two, a person feels as though they had a fit of sickness. One dose will care when first at-noked, and one to three hottles will effect a per-
